

We are currently looking for a HiWi!

You can expect:

- developing in and around the preCICE core library
- responsibilities, such as coding, code review, software testing (CI), documentation
- working on the institute servers
- full integration in our development team, including travels

You are...

- studying at the University of Stuttgart (Computer Science, Mathematics, SimTech, or similar)
- experienced in or open to learn C++ and GPU programming
- aware of fundamental numerical methods
